🤖 AI Data Analyst

Ask questions about your data in natural language!

💡 Try asking questions about the Northwind dataset:

📊 Show all customers	🛒 Recent orders
💰 Top selling products	👥 Employee performance
🌍 Sales by country	📈 Monthly sales trends

Give me the last order from Canada and how many products were in the order?

🔍 Generated SQL Query	⌄

📊 Query Results:

|	order_id	product_count
0	11,048	1

🧠 **Analysis:**

Analysis:

1.   Key Findings: The last order from Canada has the order_id 11048.

2.   Patterns or Trends: As only one data point is provided, it's not possible to identify any patterns or trends.

3.   Notable Insights: The last order from Canada consisted of 1 product.

4.   Summary Statistics: Not applicable in this case as we only have data for one order.

In conclusion, the last order from Canada, with order_id 11048, included one product.
